

As part of the Victoria Gate developments in Leeds, a large casino licence has been awarded to Global Gaming Ventures (GGV). This includes a financial contribution, from the company, to a Social Inclusion Fund to be managed by Leeds City Council. This includes an up-front payment and ongoing, annual contributions.

As part of that main fund, Leeds City Council has agreed to set up a £50,000 small projects fund to be managed by Leeds Community Foundation. The over-arching focus of the fund is on social inclusion with a specific focus on people being more financially and economically included.

Below is a list of groups who received funding in 2017:

- Chapeltown Citizens Advice Bureau
- St Gregory's Credit Union
- West Leeds and Bramley Credit Union
